AQ2

SOUND DEFINED. BE INDIVIDUAL. LOOK AMAZING.

With the AQ2 Series drums you can sound like the pros. All **maple** shells and our new **SmartMount** facilitate this.

German engineering inside.

We offer five standard configurations to start with, all featuring our popular 7-ply all maple shell construction (4 plies of Canadian maple, 3 plies of Chinese maple). The drums share fittings and finishes, offering the flexibility to mix and match within the whole AQ2 Series.

The AQ2 Series drums come with newly designed shell hardware and a new tom mounting system: the SmartMount. This minimalistic yet functional mount has the true German design and engineering spirit inside: optimal sound sustain with a minimal amount of hardware on the drum shell.

Choose a **core configuration** and add **single drums** to meet your dream setup. We offer the widest selection of shell sizes in this class. Now it's your choice.

AQ1

THE BEAT STARTS HERE!

The **AQ1 Series** defines the entry into the world of the **SONOR Sound** - a birch shell kit, completed with a 5-piece 2000 Series hardware pack in our 2 popular configurations Stage and Studio, available in 2 classic, yet stunning high gloss lacquering finishes: Piano Black and Piano White.

Stage Setup (additional items shown)

Studio Setup (additional items shown)

The AQ1 Series has been newly designed and engineered from ground up by the SONOR team in Bad Berleburg, Germany. Designed not only visual by a new lug and badge but also acoustical by the isolating „SmartMount“ that allows for significant better resonance and sustain of the 100% all birch shell rack toms. If you're an ambitious beginner or already a SONOR enthusiast looking for the additional stage-ready drum kit – AQ1 is for you.
