

SAFARI GLOCKENSPIEL

SAFARI GS

THE MUSICAL JOURNEY BEGINS – WITH THE SAFARI GLOCKENSPIEL!

Music brings joy, encourages creativity, and accompanies children on their journey of personal development. They train their ears from an early age, which is why we place great importance on precise tuning in our Glockenspiels. For us, this quality is the difference between a simple toy and a valuable instrument.

Thanks to the Boomwhackers[®] color system, children can play their first songs right away – without having to read music. Playful, colorful, and intuitive!

The sound plates are securely and stably attached to a soft felt base. The Glockenspiel can be easily rolled up and stored in the practical storage box. Perfect for on the go – and the box can also be turned into a small drum.

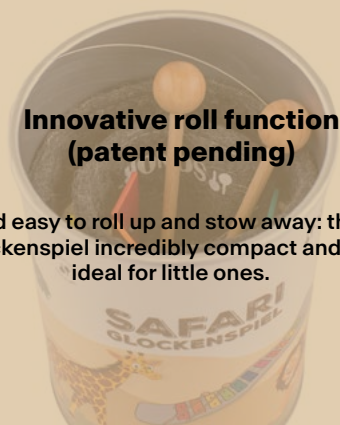

With its charming safari design, the **SAFARI Glockenspiel** combines musical fun with a spirit of adventure – making those first musical steps a special experience.

Key features

Innovative roll function (patent pending)

Quick and easy to roll up and stow away: this makes the Glockenspiel incredibly compact and handy – ideal for little ones.

Sound plates in Boomwhackers[®] colors

Playing music is child's play, even without any knowledge of music notation! The colored sound bars help with this.

Compact and protected, can be stored in the box

The box fits in any cupboard, drawer, or bag – and it can also be turned into a drum. A flexible travel companion!
